

# FORT STAR STRIKE

TEAM 3

**CRASH!**

**WHAT WAS THAT?!**

# The Plan

## That was a close one

The seismic activity was recorded right next to the hangars at Fort Star Strike. The fort sent its best scientists and bravest airmen to investigate. Above ground, they found just a large hole. Below, there was a previously unknown cave the quickly was endangered.

The expansion consists of two halves. The air half consists of hangars that house A Cadet's Journey, the interactive motion simulator, and Sky High Dining, a simulated dinner in the sky. While you are here, make sure to visit Air Traders to pick up exclusive Fort Star Strike patches.

On the other side of the runways, journey below to find the Cavern Cleanup, an expedition to cleanup the crash site of a crashed alien ship in a never before seen subterranean ecosystem. While there, visit the Base Camp Canteen to eat and take in the environment.

**CAUTION: NOW ENTERING  
CRASH SITE**

**Air Force personnel  
have dug underground and  
located the crash site.  
Enter at your own risk!**

# CRASH SITE CLEANUP

Attraction #1

Crashed underground, the Alien Spaceship is polluting The Earth. Join with other recruits to contain the pollutant that is seeping from the Alien Ship.

This immersive Multi-Level Play Area contains three zones; The Crash Site, Mushroom Grove, and Crystal Caves each with an assortment of play areas and interactive experiences to accommodate all guests.

**Each area contains a pool which fills with plastic balls to simulate a pollutant.**

**Occasionally, the system will over flow! This triggers an emergency scenario which will refill the emptying "pollutant" ball pits.**

# BASE CAMP CANTEEN

Quick Service

Inside the Cave system the Air Force has constructed a base camp to help with cleaning the Crash Site

The food inside are classic favorites with a few specialty options including the glittering Mushroom Burger with pickled mushrooms. Also the rainbow rock shake with popping candy and rock candy straw.

# ENTERTAINMENT ELEMENT

Characters are wandering the park and interacting with guests, bringing them into the story.

Extraterrestrials, Quasar, Cosma, and AU801-C, have vacated the crash site. They are seeking information from guests about the planet on which they have just landed.

Air Force Officials, Clyde Cessna and Fiona Fuselage, are desperate to protect everyone from this invasion, but they will need more recruits for special missions to be successful.

*Who will you help?*

**CALLING ALL CADETS!**

HELP THE AIR FORCE IN PROTECTING  
OUR EARTH.

LEARN FROM MASTER PILOTS, AND  
HEAR ABOUT THEIR EXPERIENCES,  
FROM CADET TO CAPTAIN TO GENERAL  
TO COMMANDER.

# A CADET'S JOURNEY

## Attraction #2

'A Cadet's Journey' allows guests to train like an air force pilot. Pilot and co-pilot must work together to complete the task. They will endure training sessions and complete different missions to earn badges. The type of task completed determines which type of badge is earned.

The missions are updated seasonally, so guests are encouraged to come back to complete new missions and collect new badges!

Located in the main hangar, guests enter from the exit of the simulator ride and also are able upon entering the hangar.

Purchase your jacket and have the badges you earned embroidered to showcase your skills.
